

M&L Testing Equipment (1995) Inc. Is still Open During the Covid-19 Pandemic

To Our Valued Customers,

We wanted to update everyone on our current status. M&L is still open for business, still supporting and supplying key essential companies and organizations across Canada.

The essential business lists in Ontario have not affected our ability to continue the day to day business and we are still open to all other provinces.

The overall health of all our customers, suppliers, employees and our surrounding community is of the utmost importance to us. All the necessary precautions are being taken to keep everyone safe.

Our ability to continue to distribute products and support to our customers has been minimally affected by the Covid-19 situation. Since we qualify as an essential business under all provincial and federal guidelines, our shipping and service departments remain open and we are operating at full capacity. Within our facilities, we are following the Health Canada's prevention guidelines including social distancing and increased sanitation and cleaning practices. If you have any questions, please feel free to give us a call at 905-689-7327.

We appreciate your business and wish you, your family, and your organization health, stability and safety over the coming months
